SUMMARY

A recent Full Stack Developer graduate with a passion for developing scalable web applications and working across the full stack. Expanding my knowledge in Full-Stack and ready for my challenge.

TECHNICAL SKILLS

HTML5, CSS3, Bootstrap, Javascript, Node.js, React.js, Redux, AJAX/JASON and SQL

TECHNICAL PROJECTS

Snakes and Ladders Game - [Github](#) | [Demo](#)

Created game by utilizing HTML, CSS, JavaScript functions, loops and DOM and conditional statements to change place of player according to ladders or snakes.

News Feed Website - [Github](#) | [Demo](#)

Created news feed website using Node.js, API, DOM, JavaScript and also used database(PostgreSQL) to store data when user register and to authenticate at login page.

Mix-Couple Website - [Github](#) | [Demo](#)

In this project I have utilized Node.js, API(created my own API), React.js, JWT and also used database(PostgreSQL) to store data when users register, to authenticate at login page, save posts and comment and render them on page.
